LYING LABELS: LESSON NOTES

We are born with an innocent self-image. As we travel through life, we begin to develop a concept of self, based on our experiences and the words of people in our lives – our peers, parents, teachers and others. We must be proactive in weeding through the descriptive words that stick to us and fight against those which contradict the Word of God. We want to see ourselves the way HE sees us, and stop believing the negative lies trying to tear us down and make us feel like we are not pretty enough, smart enough, talented, or worthy.

How does God define us in His Word?
